NOTICE TO CONTRACTORS

We're excited to announce a significant upgrade to our bidding process, designed to create a more seamless and efficient experience for you. With this enhancement to the bidding process, AASHTOWare Project Bids will be used for the final time with the June 18, 2026 letting. On **July 16, 2026**, our agency will be migrating to enhanced bidding workflows powered by Bidx.com.

This transition will bring a number of key benefits, including:

- A seamless, browser-based experience: Bid completion and submission will now be directly in Bidx.com, eliminating the need for installed software like AASHTOWare Project Bids™.
- Wider compatibility: The new system works with all modern operating systems and browsers, including Mac users!
- Streamlined workflow: Upfront bidding requirements like Bidder ID and the Infotech® Digital ID™ will be integrated into a new, intuitive workflow.

Updated bid forms accessible on [Bidx.com](https://www.bidx.com) will be available **starting July 16, 2026** at advertisement for the August 2026 letting. For lettings prior to August 21, 2026, please continue to bid as you normally would using EBSX files from Bidx.com. The following links to information and resources will aid you in preparing for the upcoming change to enhanced bidding workflows. Additional reminders regarding this transition will follow over the coming weeks.
